

• *Welcome !!!*

TMDL Process (3 parts)

- TMDL development
- Implementation Plan development
- Implement the plan

Steps after EPA Approval

- Develop Implementation Plan
- Implement **Best Management Practices**
- Continue stream monitoring - DEQ

A photograph of a forest stream with a title box. The stream flows through a dense forest with many trees and lush green vegetation on the banks. Sunlight filters through the canopy, creating dappled light on the water and forest floor. A title box with an orange border is positioned in the upper left quadrant of the image.

Implementation Plan Development

Implementation Plan development is required by state legislation

DCR, DEQ, VDH and other state, federal and local agencies will support plan development

Implementation Plan Development

- Implementation Plan will be done locally
- Stakeholders will have the opportunity to participate in the plan development
- DCR & DEQ Implementation Plan Guidance Document

Integration with other Watershed Plans

- Multiple water quality programs and activities
- Each has specific geographical boundaries and goals
- TMDL implementation will be coordinated with other plans, such as:
 - Chesapeake Bay Tributary Strategies
 - Watershed Plans/Roundtables
 - Local Comprehensive Plans
 - Etc.

22 11:37 AM

Potential Funding Sources

- Potential funding sources for best management practices (BMPs) identified in Implementation Plan:
 - **USDA Programs - CREP/EQIP**
 - **EPA Section 319 Funds**
 - **Water Quality Improvement Fund projects**
 - **State Revolving Loan Funds**
 - **State Cost-Share Program**
 - **State Tax Credits**

TMDL Process (3 parts)

- TMDL development 
- Implementation Plan development 
- Implement the plan
